PARIS, KENTUCKY, FRIDAY, NOVEMBER 6, 1914.

PROPOSED HOSPITAL ANNEX TO MASSIE MEMORIAL HOSPITAL.

The late Mrs. W. W. Massie in bequest left funds for the establishment of a hospital in Paris, Ky. The management of said funds, in planning the erection of said hospital was kind enough to consider provision for colored people to be known as Hospital Annex.

At first it was suggested that the colored people would raise a fund with which to furnish the annex when built. Nothing was done toward it by the colored people. A little later the management proposed to build and equip the annex at a cost of \$6,000. A proposition was submitted to the colored people as follows: You raise \$1,500 and the white people will raise \$4,500 of the \$6,000 needed for the annex. Dr. A. H. Keller was detailed by the management to help the colored people in raising their portion.

Fearing lest the call should come to us for our share before we were ready to respond with the cash and thereby delay the management, we gave ourselves sixty days to show our high appreciation of the kind offer made. We canvassed individuals, public schools, churches and lodges of the city of Paris and county of Bourbon at our own expense. January 1, 1914, was the date fixed to raise the amount. On that day the public schools, lodges and churches from all parts of the county met at the Methodist Church in Paris. All day long the annex management worked like Trojans. Here and there in the multitude could be heard these words: "They will never do it." "They will never do it." Night came on. A great crowd gathered. Ten o'clock came. It was not done. Many who had given all they had, borrowed from a friend and came to our assistance. Lodges increased their contributions. It was an awful pull. The holidays just over. Our means limited. But we wanted the annex. At 11 o'clock the president lifted his hand for silence. The vast audience held its breath. The inquiry on each brow—"What will it be?" The president said, "To-day marks the fiftieth anniversary of the issuance of the Emancipation Proclamation. On this day, as fitting tribute to the occasion, we have raised the sum of \$1,525." Prolonged applause greeted him. A bonfire was proclaimed and the air teemed with fireworks. No where could one be found among us who could conceive the shadow of a doubt as to the verity of the annex. Why? The good white people of Paris and Bourbon have said: "If you raise \$1,500 we will raise \$4,500, build and equip an annex at a cost of \$6,000." If these white people say they will, they will. With no great effort, we could see in the no distant future some of our own girls at work as nurses in the annex; our physicians rushing their patients to the annex and attending them there, rather than at Lexington.

The city and county took over the management. The hospital was completed, and the white people happy over the event. The colored people rejoice with them. But two years have now passed. The annex management has been subjected to many embarrassments. Extra trips have been made over the county to shut off false rumors concerning the annex. We have gladly paid our hospital taxes. Our money has been tied up two years. We have patiently waited. With difficulty, we have managed to hold our people together and keep them hopeful.

Just after the great revival in our city, would it not be an opportune time for the Macdonian Call, "Come over on the annex and help us?" Is it asking too much, to ask that the city, the county and the white people combine and answer this annex call, thereby redeeming their pledge to us and blessing us beyond anything that they can think or imagine? No people in the city and county stand so much in need of hospital facilities as do the colored people. They have not the means to send their sick to Lexington, and go back and forth to look after them. They have not the sanitary conveniences at home to properly care for their sick. They do not know what to do for their sick as do many others. Now our friends, and friends of humanity—do you again say to us after two years of patient waiting, "At a more convenient season we will redeem our pledge and look out for the annex for you?"

Or do we hear you kindly say, "The annex can be had now; the annex ought to be had now; the annex will be had now." "I will" has a spirit that nothing daunts. Once he gets his eye on the thing he wants; He rolls up his sleeves and pitches in with a splendid zeal that is bound to win. "I will" understands in his own strength lies. The one chance he'll get at the things men prize. Discouragement, failure—nothing can chill. The stout heart of him who declares, "I will."

BECKHAM, CAMDEN, CANTRILL

Returned as Winners in November Election Last Tuesday.

TICKET BRINGS OUT LARGE VOTE.

Beckham First Kentuckian To Be Elected By Direct Vote.

The first Kentuckian in the history of the State to be sent to the United States Senate by the direct vote of the people is ex-Governor J. C. W. Beckham, who triumphed at the polls last Tuesday by a majority running very close to 40,000.

Johnson N. Camden, Democratic candidate for the short term, which expires March 3, is returned to the Senate by a majority in excess of 40,000, and has the honor of leading his ticket handsomely.

Augustus E. Willson, former Governor of the State and Republican Senatorial candidate, gets second place, and leads Burton Vance, Progressive candidate, by a large majority. The race between the Republicans and the Progressives was the only real contest, as the Democratic candidates ran way ahead of their opponents in all instances.

In the eleven Congressional races throughout the State no change whatever in the complexion of the Kentucky delegation is made. Democratic candidates have been elected by very comfortable majorities in all districts save two—the Tenth and the Eleventh—where John W. Langley and Caleb Powers, Republicans, are returned to Congress.

The only new face in the entire Kentucky delegation is that of David H. Kincheloe, who succeeds A. O. Stanley in the Second district.

In this city and county the election passed off very quietly, with the following results:

United States Senator (long term)—Beckham, 1,714; Willson, 1,623; Beckham's majority, 91.

United States Senator (short term)—Camden, 1,789; Bullitt, 1,499; Camden's majority, 290.

Congressman—Cantrill, 1,764; Bristow, 1,524; Cantrill's majority, 240.

C. O. Hinton was elected a member of the City Board of Education to succeed the late Mr. C. Arnsperger. Mr. Hinton had been appointed by the Board to serve out the unexpired term of Mr. Arnsperger. Geo. D. Speakes received some votes for the office, but he was not eligible, being already the holder of an elective office, Councilman from the First ward.

DEPOSIT BANK IMPROVEMENTS.

The remodeling of the Deposit and Peoples' Bank building which has been in progress for several months is almost completed, and the new rooms are now receiving the finishing touches from the plasterers. The new concrete vault for the big safe has been completed for some time, and is a marvel of strength and security.

The new rooms will be used as a directors' meeting rooms, and one room, which will be devoted to the women patrons of the bank, will be supplied with stationery and writing materials and other conveniences for their use.

CLUB MEETINGS.

The subject of the literary program at the November meeting of the C. W. B. M., which will be held in the parlors of the Christian Church at 2:30 o'clock this afternoon, is a book review in "Red Man's Land." Mrs. Robt. Goggin will be chairman. The business meeting will precede the literary program.

At their meeting Wednesday afternoon the members of the Paris Literary Club were entertained with an account of the Meeting of the General Federation of Clubs at Chicago, in June. The report was read by the president, Mrs. Thos. Henry Clay, Jr., in lieu of the regular program. The report, which was full of matters of the deepest interest to the members, was heartily enjoyed and greatly appreciated.

In the absence of the president, Mrs. Amos Turney, Miss Clara Bacon presided at the regular meeting of the Progressive Culture Club, which met Wednesday afternoon with Miss Clara Belle O'Neill at her residence on High street. The subject of the program was "Forestry," and a paper on "Forest Lift" was read by the chairman of the program, Mrs. Robt. Meeter; Miss Martha Wyatt read a paper on the "World's Wonder—Wood;" Miss O'Neill read Mrs. Roy Clendenin's paper, "How Best to Preserve Trees and Renew Them."

SMALL FIRE.

Burning rubbish in the cellar of the residence of Tom Carter, colored, on Brooks street, Wednesday night, caused the fire department to make a quick run in response to an alarm from box 13. The fire did not amount to much and was quickly extinguished.

RECOVERS STOLEN HORSE.

Clayton Jones, a twenty-year-old white boy, was arrested here by Deputy Sheriff Clay Hodgkin, of Clark County, charged with stealing a valuable horse from Mr. Winfield Thomas, of the Ruckerville neighborhood, in Clark county, on the night of Oct. 24. Jones admitted taking the horse, which he said he abandoned on the road at the junction of the North Middletown and Austerlitz pikes. The animal was afterward found on the farm of Mr. J. S. Butler, near Austerlitz. Mr. Butler advertised the stray in the Bourbon News, and this was the direct cause of the animal's being located by the Winchester authorities. The saddle and bridle were also recovered.

Jones was taken to Winchester and lodged in jail to await his examining trial.

NEARING COMPLETION.

The new two-story business house being erected by Louis Saloshin, on the site of the old McClann home, on the corner of Main and Seventh streets, is nearing completion. The building is expected to be ready for occupancy on or before February 1, 1915, when it will be occupied by Mr. Robert Walsh, lately of Mt. Sterling, as a clothing store. The building is now under roof and will soon be ready for the plasterers.

LUKE McLUKE SAYS.

(Continued on Page 8)

If you really want to be different from the rest of mankind, give money instead of advice.

Why is it that the Bartenders have always been overlooked when we are hunting for material for the Diplomatic Corps? Any man who can handle 50 souces who want to whip him and 50 rummies who want to kiss him and send them away happy is some Diplomat.

A woman places more faith in a little hook and eye than a man would on an elevator cable.

The lad who must have a nightcap before going to bed always wants an eyeopener when he gets up.

When a man has everything to gain and only his voice to lose he never has much trouble enlisting suckers in his Cause.

An ideal marriage is one in which the wife can keep her temper and the husband can eke a little money.

You may have noticed that the poker player who walks around his chair to change his luck never changes it.

A man can always find out how old his children are by asking their mother.

When a man marries he never stops to figure that the sight of an old corset hanging on the back of a chair every morning in the year may become monotonous.

The finest way to advertise the fact that you are bald is to wear a wig.

When a man starts out in the world he wants, High, Low, Jack and the Game. But after he has gone over the jumps for a few years he is satisfied if he can save the game.

What has become of the old-fashioned boy who spent Saturday night with his head in his Mother's lap while she conducted the weekly Fine Comb Investigation?

Job got a reputation for being a Patient Man because he never lived next door to a family that had three or four daughters who took turns de-cooping their calves at the Player Piano.

If some of the women had as much hair on their heads as they have on their upper lips, there wouldn't be many switches or transformations sold.

A man doesn't like to kiss a little girl because her kisses are too wet. But a big girl can slobber on his face all she pleases and he will never think of calling on the Salvage Corps.

One reason why we should send Missionaries to the Heathen in Africa is because some of the Heathens might get hold of one of our magazines and obtain the impression that men and women over here never wear anything more than Union Suits.

A thin girl is so easily pleased that she knows she has a good figure just because she isn't wearing Truck Horse ankles.

There isn't any excuse for the Bachelor Girl. Any time a woman makes up her mind to change her name she can herd some sort of a he-animal into a corner and make him say "Unde."

The American Poultry Association says the perfect chicken should have short legs. Well, if they mean the same kind that I mean, I do not care so much for the underslung model.

When a man has a wife and three grown daughters he can't see why his wife wants to spend good money on a phonograph.

Judging from the Court Records, a lot of girls seem to imagine that the old proverb should read: "Marry in haste and spend the alimony leisure."

CARGO OF REPTILES

Odd Shipment Reaches New York From Colombia.

Three-Legged Frogs, Cubist Tortoises and Owl-Headed Monkeys Going to the British Museum—How Arrows Are Poisoned.

New York.—H. G. F. Spurrell, M. A., M. B., B. Ch., Oxon.; F. Z. S., London, and graduate of the London School of Tropical Medicine is in our midst. He arrived from the wilds of Colombia aboard the steamship Pastores of the United Fruit line and he will sail for England with as strange a collection of reptiles and bugs as was ever dreamed of by an overindulgent Omar.

Mr. Spurrell of the many degrees is connected with the British museum and for the last twelve months he has been ransacking the Choco district of Colombia in quest of strange snakes, bugs and such like things. He is taking back to England over 1,000 specimens, most of which have never been classified by science.

Among his collection are several three-legged frogs and a pair of cubist tortoises. The frogs live in trees and they are used by the Indians to obtain poison for their spears and arrows. The method by which the Indians obtain this poison is barbarous to say the least.

"It has been generally supposed," said the scientist and explorer, "that the Indians obtain the poison for their arrows and spears by taking the venom of snakes. This is not true. They capture a lot of the three-legged tree frogs and proceed to affix them to sticks and then toast them gently over a fire. The frogs under the toasting begin to sweat a deadly poison which is collected, and into this the arrow heads and spear points are dipped. The poison is extremely venomous and once it enters the human blood death results instantly."

The scientist tells of many strange reptiles and mammals he encountered in the Choco wilds. Principal among these is the owl-headed monkey. These monkeys, according to Mr. Spurrell, differ but little from the monkeys we are all familiar with except that their heads bear a strong resemblance to the hoot owl.

The hoot owl monkeys give voice to terrible sounds not unlike that made by the circus calliopes of our childhood days. These hoot owl monkeys travel in groups of six or seven and their voices all differ. When they yowl or howl or screech they do not do so in unison, but each follows the other. The result is that a party of these monkeys in the forest sounds like the steam circus terror. They run the scales and blare forth noises that terrify the strongest hearts.

The explorer also describes a species of ape, known as the sobbing monkey. This weeping creature seems perfectly tame and follows in the wake of the natives who happen his way, giving voice to loud lamentations. The natives who are thus followed consider it an omen of bad luck and at once consult their medicine men to be relieved of the sobbing nemesis.

Mr. Spurrell says he has never discovered why the monkeys sob or why they follow humans about unless they are seeking someone to wipe their noses.

CIRCLES THE WORLD IN VAIN

Russian Official Travels, but Fails to See Mother, Whom He Now Believes Is Dead.

Seattle.—Capt. D. S. Vassilleff, naval attaché of the Russian embassy at Washington, arrived from Yokohama after a trip virtually around the world begun in an effort to see his dying mother. The war prevented him from reaching her bedside.

Advised that his mother was fatally ill of cancer at her home near Petrograd, Captain Vassilleff obtained a leave of absence and departed from Washington July 15. He arrived in Petrograd August 1 and reported to the war office.

There he was informed that mobilization of the army had begun. He was ordered to return to his post immediately via Siberia. He has not heard from his mother, but believes she is dead.

When he arrives in Washington he will have traveled entirely around the world.

CAVALRY RIDES TO DEATH

British Regiment Rushes on Barbed Wire and Is Cut to Pieces by Germans.

London.—A private letter received here from a British officer at the front tells how a British cavalry regiment suffered severe loss through a ruse of the enemy.

The regiment, it seems, sighted a German battery not far off firing in a reverse direction, and the British officer decided that the battery was unaware of their presence, whereupon he ordered a cavalry charge down into the valley which lay between them and the battery.

Unfortunately the bottom of the valley had been very cleverly studded with concealed barbed wire, into which a great portion of the regiment rushed before the front rank could give warning. Immediately the German battery turned its guns around, inflicting heavy loss.

WRITES NEWS OF OWN DEATH

French Mother Receives Letter From Son Written Just Prior to His Demise.

Paris.—One of the countless French mothers with sons at the front at the beginning of hostilities has received the first news of her boy. Within an envelope addressed to her son in an unknown hand were two letters, the first written in the same hand as the outside address and the second in a hand familiar to her. This was the letter from her son and read as follows:

"Dear Parents—If you receive this letter I shall have been killed. Do not weep for me, since my fate is the most splendid of which a Frenchman can dream—to die for his country on the eve of victory, for I am sure we shall conquer. We have the right and the confidence on our side, and I shall have done my duty to the end."

"I hope that my death will be useful to the country and regret only the sorrow you will feel. But you may console yourself with the thought that as a Frenchman I have given all to my country and that as a Catholic I died after being reconciled with God. My last thoughts will have been of you."

"Corporal, —Dragoons." The other letter was from a Belgian priest describing the soldier's death as that of a hero, assuring the mother that his body was properly buried and concluding:

"You will come to his tomb after the war."

WILL NOT POSTPONE BIG FAIR

War in Europe Will Not Cause Postponement of Panama-Pacific International Exposition.

San Francisco.—The Panama-Pacific International exposition will not be postponed on account of the war in Europe. On the contrary, it will open on the scheduled date, February 20, 1915, and it will be completely ready when opened. Such is the announcement of President Charles C. Moore.

"There is not the slightest reason," says Mr. Moore, "to believe the success of the exposition will be impaired by the war. Not one of the belligerent nations has given notice of intention to withdraw its participation. Several of them have sent word that their plans are unchanged, and Holland has increased its appropriation from \$100,000 to \$400,000. The fact that the war will make the United States of supreme importance among the nations it is believed will increase the domestic participation, and a campaign already is being started to make the exposition the place for an international peace conference next year."

WILL JOIN LEPER COLONY

English Minister Will Sacrifice a Life of Ease for Isolation With Incurable.

London.—From a life of comparative ease to isolation in a Japanese leper colony is the lot which the Rev. A. S. Hewlett, until now the vicar of Birkenhead, has chosen for himself. He is now on his way to Japan. The clergyman took the step only after careful thought. But as he has no family ties, he saw nothing to stand in the way of it. He will not work on the medical side, but devote himself to the spiritual needs of the lepers. At the same time he will not neglect the cautious known to science to avoid contracting the disease.

Not What He Meant.

In a case in which a man was charged with cruelly ill-treating a horse by working it in an unfit state, a constable expressed the opinion that the animal was not capable of doing any more work on account of its age. A solicitor for the defense suggested that the horse merely required a rest. Magistrate—"Eternal rest?" Solicitor—"I do not mean that, sir."

Saved by a Dog.

The sagacity of a dog has saved the lives of a master at Eton college, England, and his family. They reside at Ye Olde Falge, Slough, and the master was awakened in the middle of the night by the dog scratching and whining at the bedroom door. He found the kitchen and study ablaze and this part of the house gutted, valuable pictures and books being destroyed.

Faithful.

An Indiana automobilist was taken suddenly ill with acute indigestion, and his car was left by the curb over night. His bird dog, which usually accompanied him on his journeys, insisted on keeping guard over the car until the next day, when it was taken to a garage. The dog seemed to know that a greater responsibility devolved upon him through his master's illness.

Suited Her Exactly.

The Surest Way.

"My life is made a burden by bill collectors." "I've discovered a way of getting rid of 'em that never fails." "For heaven's sake, put me wise." "I pay 'em, my boy."—Boston Transcript.

Any old time you hear a mutt loudly irrigating the Memory of his Dear Old Mother in front of a bar, it is a safe bet that he treated his Mother like a skunk when she was alive.

"I was taken with a severe headache and cold, which finally brought on constipation and bowel trouble. Physics of all kinds were used, and we were obliged to resort to the fountain syringe for help. I could drink castor oil like water, but it did no good. Salts were of no use. The doctors were puzzled. After using three bottles of Peruna I consider myself entirely well." Mr. John B. RESULTS THAT REMAIN.

Are Appreciated by Our People. Thousands who suffer from backache and kidney complaint have tried one remedy after another, finding only temporary benefit. This is discouraging, but there is one kidney medicine that has earned a reputation for lasting results and there is plenty of proof of its merit right here in Paris.

Here is the testimony of one who used Doan's Kidney Pills years ago, and now make her testimony even stronger.

Mrs. J. T. Martin, Pleasant & Eleventh Streets, Paris, Ky., says: "I suffered quite severely from pains across the small of my back and in my kidney. The trouble alarmed me and I tried many medicines. I did not get relief however, until I procured Doan's Kidney Pills at Wilson's Drug Store, (now Butler & Co.'s Drug Store.) They improved my condition in every way. All I have ever said praising Doan's Kidney Pills was entirely correct and I confirm my former endorsement of this remedy. They permanently cured me of kidney trouble."

Price 50c., at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Martin had. Foster-Milburn Co., Props., Buffalo, N. Y.

LUKE McLUKE SAYS

(Chincinnati-Enquirer.)

You can teach a girl any of the Sciences. But you can't make her understand that if she would wear red-flannel underwear she wouldn't need furs.

The old-fashioned woman who thought of nothing but clothes now has a daughter who hardly gives clothes a thought when she is dressing to go out.

Charity has a fat chance in this world. When a man wants to be generous he always begins with himself and can't get any further.

Marriage is one institution that will always flourish despite the knocks of the Wise Guys. When you have a warm, soft bundle of girlhood in your arms and the wonderful perfume of her hair makes your whole system tingle, and she holds you so tight that you can hear her heart beating against yours, and you realize that she regards YOU as the Guy who puts the Sun and lights out of the moon—what are you going to do, kick her in the slats, or ask her to let you be her door mat for life?

Father spends ten years of his life telling the children that Caster Oil isn't bad to take, and then wonders why the children do not honor and respect him when they grow up.

When a married man hears his wife say that she has nothing more to say he gets ready to settle down for two hours while she says it.

There isn't anything new under the sun. The Corsetless Effect had its origin in the Garden of Eden.

The old-fashioned little girl whose birthday present used to be a China cup, bearing the inscription "For a Good Little Girl," now has a little girl who wants a manicure set, a real willow plume and a vanity bag every time she has a birthday.

You are never too old to learn—Even a chorus girl doesn't know it all. What has become of the old-fashioned toothbrush that used to be common property in the home?

When a girl tells a man to quit and he quits she gets mad at him because she told him to quit.

The man who never uses a napkin at home makes the loudest kick if the waiter forgets to give him a napkin when he is dining out.

The fellows who mind their own business are the ones who have all the luck.

The only excuse some women seem to have for getting married is that they had to have some mutt to kick the cat out of the house every night.

THE CHARM OF MOTHERHOOD

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

DASHED HIS HOPES OF GLORY

Would-Be Military Hero, Aged Eleven, Recognized Call That There Was No Disobeying.

Senator John Sharp Williams was never in the Confederate army. But the fault is not his. He started with the best intentions, as well as with a knapsack filled with a good lunch.

The war was at its height when he was a big boy of eleven, and as his father was in the army, and dozens of friends and relatives had gone forth to battle against the dreaded "Yank," John Sharp one night decided that his country called him to arms. The fact that he was only eleven, and about the only road he knew was that to the candy shop, did not deter him. Out in the darkness of the night the "call" of his country sounded as loud as the dinner horn to hungry field hands.

So young William arose and set forth down the road in the early dawn. And as he tramped down the lanes of dust, past the still farmhouses over which hung the early smoke from the kitchen chimney, he dreamed dreams of how he would come back on a prancing charger covered with glory, gore and gold lace. Then suddenly behind him he heard the lope of an approaching horseman. Looking back, he saw it was old Uncle Zeph on the blind mule. Uncle Zeph pulled up the mule with a jerk beside his young master.

"John, your maw says as how you better be gittin' back home in a hurry. She ain't er goin' ter stand for no sich goin's on!" exploded Zeph. "You jes' clim' up here 'hind me on dis mule and he'll tote us home ter breakfast!"

So John climbed aboard the mule and turned his face homeward, leaving in the ashes of a dead past his high hopes of military glory.

DOG'S HIKE COVERED MILES

To Reach Old Master He Made Distance of Many Leagues in Two Months.

A. A. Smith of Sterling received a telegram declaring that a dog for which he had conducted a wide search after losing the animal in Denver is in American Falls, Idaho, with friends, according to a Sterling (Col.) dispatch. The dog, a Scotch collie, made its way on foot from Denver to the Idaho town, covering the distance of 975 miles in three days less than two months.

The dog had been raised in the Idaho town. He was purchased by Smith and shipped from Idaho July 15. He was placed in a baggage car and fastened with a collar and chain. The dog was on the train when it reached Denver. Smith went to the baggage car to claim the dog. He and the baggage man were astounded to find the dog missing. The collar, securely fastened to the chain, remained to tell in what manner he had made his escape.

Smith spent four days in Denver hunting for the dog and advertised extensively in the newspapers. He finally gave up hope of ever hearing of the animal again.

The telegram from the former owners of the dog at American Falls informed Smith that the dog had just arrived there and that he was footsore, weary and otherwise suffering from his long, and what must have been an eventful, journey.

Valuable California Spring.

Arsenic in quantities surpassing the percentage of the only other spring of its kind in the world has been discovered in the waters of the springs at Arrowhead, north of San Bernardino, Cal. According to the analysis the water at Arrowhead was found to contain one-twentieth of a grain of arsenic to the gallon, while that of the only other known spring in the world, at Bourboule, France, contains one-sixty-seventh of a grain to the gallon. This latter percentage of arsenic is found in steam caves in Waterman canyon. The springs at Bourboule, France, are considered to be of such value that the government has erected a sanatorium costing \$3,000,000 for the benefit of the French people.

New Power Vehicle.

The latest addition to the family of motor-driven vehicles is the autoped. This machine has the carrying platform below the wheel axles and is designed to be ridden while standing upright on one or both feet. The control being in the steering pillar. The engine, 2½ horsepower, is built in the front wheel and the steering pillar is hollow, serving also as the gasoline supply tank. The working parts are entirely inclosed, making them dust proof, and there are no pedals or cranks about the machine, which will maintain, so the inventor claims, an average speed of 20 miles per hour over country roads, with a consumption of gasoline of but one gallon to the hundred miles.

The Shivers.

"One of the duke of Wellington's famous sayings was that every uniform didn't cover a hero."

The speaker was Col. George Harvey. He continued:

"The best drilled troops have never fought before. How, then, can they fight well when they see on every side their companions getting their heads and arms and legs blown off?"

"Chivalry may have been all very well in the past, but today is the day of machine guns, and so I rather hold today to the little girl's definition of chivalry."

"Chivalry," said she, "is when you feel cold."

HIS CENSORSHIP WAS STRICT

Duke of Wellington's Order Prevented World-Knowing About Result of Waterloo.

The absolute embargo which has been decreed upon war news by nearly every war department of Europe brings to attention again the old question of the rights of the public and the necessities of the strategists in a campaign to prevent their movements becoming known to the enemy.

"Even a century ago," says F. Lauriston Bullard in his book on "Famous War Correspondents," the Duke of Wellington was registering protests against such a mild type of war reporting as that done by Crabbe Robinson in the peninsula.

"In 1809 the duke declared that in some instances the English newspapers have accurately stated not only the regiments occupying a position, but the number of men fit for duty of which each regiment was composed, and this intelligence must have reached the enemy at the same time it did me, at a moment at which it was most important that he should not receive it."

This author is of the opinion that but for the protests of the Iron Duke the world would know far more about the battle of Waterloo than was possible in the absence of trained narrators.

The present degree of secrecy is so complete that the newspapers of London are all protesting privately to the war office and publicly in their editorial columns, and there is likely to be some relaxation of the rule.

In his discussion of the whole question of publicity of war news and the demands which patriotism at times makes for the suppression of intelligence, Mr. Mullard cites the famous war artist, Frederic Villiers, who long ago declared that "publicity, publicity, publicity is the greatest factor and force in our public life."

DOES AWAY WITH HANDWORK

Wonderful Machine That Embroiders Dozens of Pairs of Stockings Practically Simultaneously.

Shortly before the war it was reported from Germany that openwork stockings would probably be more plentiful and cheaper as the result of an invention which permits their manufacture by machinery instead of by tedious handwork. The work of the machine is described in a report made by E. Kilbourne Foote, United States vice-consul at Chemnitz, Germany.

He says: "A machine has recently been perfected in Saxony which embroiders socks and stockings simultaneously, 288 stitches being made at one time. Intricate patterns and also openwork embroidery can be done on coarse as well as on the finest grades of cotton, lisle or silk finished or unfinished hose."

"Another great advantage of the machine is that it obviates leaving hosiery for weeks with the hand embroiderers, whose work is always booked far ahead, and large orders which formerly could be executed only on long terms for delivery can now be filled rapidly. It has always been difficult to get good handworkers for fine black hosiery, as embroidering on black affects the eyesight. With the new machine only one man and one girl are required to do the work."

No Library Complete Without Them.

"The next book agent which the lady of the house will be compelled to welcome with a door slam," writes Jess Worley, "will be the man who is selling the 'new and complete history of the European war, lady, which has just been published from the Blink & Blank publishing house and bound in real Morocco, lady, with all the latest and best photographs of the rulers and their military leaders, with views of the troops, battles, skirmishes and the graphic accounts of the events that led up to the war, together with the revised and complete list of the engagements, the towns and cities in which the important fighting took place, lady, and the scenes that have become famous, all for the very reasonable installment arrangement of two dollars and sixty cents down and a dollar every thirty minutes thereafter. You can't afford to be without it.'"—Kansas City Star.

Put Ban on Veto.

It is recalled that at the papal conclave of 1903, not a little sensation was caused by the revelation that Emperor Francis Joseph of Austria had ordered Cardinal Puzyna, archbishop of Cracow, to pronounce the imperial veto against the election of Cardinal Rampolla, who was suspected of being friendly to France. On that occasion Cardinal Oreglia stated that the conclave could not accept such communication or take it into account, and, although Cardinal Rampolla was not chosen, Plus X regarded the incident with the greatest indignation, and issued a bull directing that any cardinal attempting to repeat the veto in future would be placed under the major ban, or be excommunicated.

Bell Telephone Bulletins

9—HOW TROUBLES ARE REPAIRED

There is no red tape around our method of repairing telephone troubles and correcting faults in the service. When a report of trouble is made to us it goes immediately to the proper department and the investigation begins at once. The equipment, that is the subscribers' line from the switchboard to the telephone instrument, is thoroughly tested, and if necessary, is inspected personally by a competent man. We have delicate instruments on the test-board that show the nature of a trouble and indicate its location.

Often times the trouble is in a cable or in a telephone instrument and is of an involved nature. In such cases it is necessary to send a man out on the trouble. This requires more or less time and we realize that there is likely to be an unfortunate appearance of delay on our part. We hope our subscribers will understand that we are not neglecting their trouble just because they do not see a man actually at work on their telephone. Frequently troubles occur on telephones and are detected by us and corrected by us without the subscriber knowing his line has been out of order.

The only thing in which we deal is telephone service. We cannot give good service over lines that are in trouble. It is to our vital interest to keep all lines clear and we are constantly on the job. We employ men who are especially trained for this work. A complete record is kept of every trouble and complaint, the hour it is reported and the hour it is corrected. We are in close touch with the situation at all hours. We want our subscribers to know this and to realize that their interests are our interests.

FORMER PARISIAN RETURNS
SAFELY FROM WAR ZONE.

Mr. C. Crosche, former Parisian, now of Montgomery, Ala., who, with his wife, went to Germany last summer on a visit to his old home, and who was detained there by the sudden outbreak of the European war, has made the return trip in safety, and is now at his home in Montgomery, after an eventful experience abroad. In a letter to his sons in this city Mr. Grosche says, in part:

"I am very glad that I am home again, and I know that you are all glad too. Our trip, which we thought would be a pleasant one, was rather a disappointment, not only to us, but to thousands of other Americans.

"We were very lucky to get back on a Holland steamer, but thousands are on the other side yet awaiting for a chance to get over. Our steamer, the 'Nordam,' had 2,000 passengers on board and we were packed in like sardines in a box. We had rather fair weather for the trip, but had two days of storm and our old ship creaked pretty badly, and the waves washed over the decks. We were stopped three times by English and French warships, each time for about three hours, when they let us go. After ten days we reached the shore and we were surely glad. We had six priests and one Bishop on board and on Sunday we had three masses in different dining rooms.

"We reached Hoboken Friday about two o'clock and remained there until Monday, and reached Montgomery Tuesday night. On the way over we had to sleep in different cabins, the men in one cabin and the women in another. While in the old country I helped to get the harvest in, and caught a bad cold and am not yet quite over it. All Germany has had a rich harvest and fine weather to get the crops in. There is no truth in the report that Germans are on the point of starvation, as the present crops will last for at least two years, but they already have from 300,000 to 400,000 Russian, French, English and Belgian prisoners to feed.

"We reached Hamburg on July 26, and on the 27th war was declared by Austria, and then the whole of Europe became involved. We landed first in Hagen, at my sister's, and a week later we went to my old home, but after that traveling was very difficult. All the trains and roads were used by the military department. From the first day that war was declared against Germany until the 19th day, 26,000 trains passed through Germany loaded with soldiers, and not one accident occurred. They have splendid roads. At this time when I write 7,000,000 men were under arms, three million reserves were ready to take the field at a moment's notice, and nearly two million volunteers offered their services, but were not called upon, as there was no room for them. No one in America has an idea of the spirit of war that prevails in Germany.

"Hagen is a large railway center. In time of peace three to four hundred passenger trains pass through there every twenty-four hours, but during war time I don't think there was over twenty-five trains going through, but every five minutes there was a long military train first to the front and then back filled with prisoners and the wounded. The Red Cross Society has kitchens and sup-

ply rooms at all large depots serving to the prisoners and the wounded of all nationalities, sandwiches, hot coffee and cigars, and treating friend and foe alike. Germany has not driven the French, English or Russians from its borders, but has protected them and their property, although different from their enemies. After this the Germans cannot be called 'barbarians.'

"We all hope this terrible war will soon end, with a victory for Germany. You ought to have seen the great crowds at the churches. There was room for several thousand. The churches were filled from six o'clock Sunday morning until twelve o'clock, and all took part in the singing. Even on week days the churches are filled."

NOVEMBER COURT DAY.

November court day saw one of the largest crowds in Paris for many months. Farmers generally had finished the greater part of their farm work and had "nothing to do until to-morrow," except to come to town and greet their acquaintances and neighbors.

There was a big lot of stock on the market, most of which changed hands. The buying and trading was lively, and some fairly good prices were realized.

About 150 head of cattle on the market. A large number of horses were sold at prices ranging from \$25 to \$90 each.

James Stephens bought twenty-one calves at \$24 per head.

Matt Long bought three Jersey heifers at \$21.50 per head, and Mr. Renaker bought one Shorthorn heifer for \$25.

Seven head of 1,000-pound cattle were sold to A. S. Thompson at \$5.70 per hundred pounds.

Mule colts sold at from \$25 to \$60 each. Jersey cows, \$37 to \$61; heifers, \$21 to \$27.50. Among the sales reported were the following: W. H. Whaley, Jr., of near Paris, bought 12 head of mares with mule colts by their side at about \$60 each.

At the combination sale of live stock, held at the stock yards of M. J. Murphy & Co., the following sales were reported by Auctioneer Geo. D. Speakes: Jersey cows, to Harry Long, one for \$40 and one for \$43; to Dr. William Kenney, one for \$37; to Floyd Lair, one for \$42.50; to W. H. Whaley, Jr., one for \$40 and one for \$45; to Floyd Lair, one for \$43.50; to J. H. Fuhrman, one for \$57; to James Eads, one for \$50; to W. H. Whaley, Jr., one for \$43, and to T. L. Manhall, one for \$61.

DEATHS.

ROBERTS.

—Mrs. Mattie Roberts, wife of Mr. Shelton Roberts, died at the Massie Memorial Hospital, in this city, yesterday morning at five o'clock, of septic metritis.

She is survived by her husband, Shelton Roberts and eight children—John, Spencer, Layson, Jennie, Earl, Bettie and Mrs. Elgin Turner and Mrs. Harry Waugh.

Funeral services will take place at the residence, on West street, to-morrow morning at ten o'clock, conducted by Eld. J. T. Sharrard. Burial in the Old Union cemetery. The pallbearers will be James Rye, Dan Menifee, Elgin Turner, Mark Herrington, Luther Herrington and W. S. Menifee.

OWSLEY.

—Mrs. Mollie Owsley, wife of Mr. Edward Owsley, Sr., died at her home in Ruddles Mills, Wednesday, after a short illness of a complication of diseases.

Mrs. Owsley was the mother of a large family of children, eight of whom survive her. They are Mrs. George Speakes, of Paris; Mrs. Blanton Speakes, of near Paris; Mrs. Geo. Paynter; Mrs. Lela Tate, of Dayton, Ky.; Mr. George Owsley, of Cincinnati; Mr. Roy Owsley, of Ft. Worth, Tex.; Mr. Ray Owsley, of Dallas, Tex.; Mr. Ed. Owsley, of Ruddles Mills. She was a sister of Mrs. Louis Mussinon, of Paris.

The funeral services will be held at the Christian Church, in Ruddles Mills, to-morrow afternoon, at two o'clock, conducted by Eld. George Ammerman, of Cynthia. The burial will take place in the Ruddles Mills cemetery. The pallbearers will be Jack Cunningham, James Fisher, J. R. Turner, Thomas Padgett, Charles Hough, C. A. Harney.

McLAIN.

—Mrs. Swiney Ray received a letter Wednesday from Mrs. Lillian McLain, at East Oakland, Cal., telling of the death at that place on October 22, of her husband, Mr. Jessie McLain formerly of Paris.

Mr. McLain had been ill but a short time, his death being caused by an attack of acute indigestion. He had been in his usual good health, and had been attending to business matters. Coming home on the night before his death he complained of suffering from indigestion and remained at home on the following day, the 22, he grew worse, and late in the afternoon expired from an aggravated attack of the disease.

Mr. McLain was a native of Paris, where he spent the larger part of his younger days. He was a well-known clothing salesman, and had been connected with various firms in Paris at different times. Several years ago he took a position with a large clothing house in Charleston, West Virginia, where he remained some time, and afterward went to San Francisco, where he was engaged in business at the time of his death.

Mr. McLain was a young man who had a large circle of friends in Paris, and possessed a capacity for making and retaining warm friends. He was ever loyal to his friends in his old home, and when here about a year ago spent most of his time in renewing old acquaintances.

He is survived by his wife, Mrs. Lillian McLain, and one sister, Mrs. Lizzie McLain Arkle, the latter a resident of San Francisco, Cal.

The funeral services were held at his late residence, 1619 East Fourth Street, East Oakland, following which the remains were cremated, the incineration being private.

Among the former Paris people who attended the funeral services and the cremation were Mrs. Belle Hutchison and sister, Mrs. Sophia Wornall, and Miss Emma Kennedy.

Mr. McLain was the son of Jesse and Mrs. Sallie McLain, who will be remembered by the older generation of Paris people.

WILSON.

—John Wilson, Jr., the three-months-old son of Mr. and Mrs. John Wilson, formerly of Paris, died at Hattiesburg, Miss., Tuesday. The child was born at the Massie Memorial Hospital in this city, while its parents were here on a visit.

The old-fashioned young mother who used to stay home and nurse the baby now has a daughter who buys the baby's food at the drug store and wears a waist that buttons in the back.

A few fears go a long way in a woman's age.

RELIGIOUS.

—An all-day meeting was held in the parlors of St. Peter's Episcopal Church, Tuesday, by the ladies of the congregation. The time was devoted to sewing and making plans for the work of the winter. The Young Ladies' Circle was reorganized, and plans made for their future work. At noon a delicious lunch was served. At their next meeting next Tuesday the ladies will pack a box to be shipped to St. John's Academy, at Corbin.

—The meeting of the Women's Missionary Society of the Methodist church Tuesday afternoon was a very delightful one. The President, Mrs. Henry Power, presided. The program, which was one of unusual interest, was in charge of Mrs. S. T. Chipley. The principal subject, "The Conquest of the Cross of Darkness," was divided into two parts, home and foreign. About thirty-five members were present, including six new members. A social hour was enjoyed after the conclusion of the exercises, during which chocolate and wafers were served.

—Services will be held in the Hutchison Chapel at Hutchison each evening at 7:30 o'clock. The pastor, Rev. J. J. Dickey, will be assisted by Rev. Lingalite, of Michigan. All are invited to attend these services.

REVIVAL SERVICES AT THE CHRISTIAN CHURCH.

A revival meeting of the most interesting character, which was begun at the Christian Church last Monday night, conducted by the pastor, Eld. W. E. Ellis, is attracting large audiences nightly.

On Monday night, Eld. Ellis delivered a remarkably eloquent sermon on an ever-interesting subject: "The Ascension of Christ." At the close of the services, when the invitation to accept the Gospel was given, thirty-one persons responded, twenty-one by confession, and ten by letter, as follows:

By Confession—Messrs. George L. Speakes, Roy Turner, Hiram Adair, Jno. Ashurst, Bishop Batterton, Chas. Padgett, E. W. Culbertson, William Flanders, Keller Larkin, James Adrian Flanders, W. T. O'Neal, Douglas Ross, Sidney Linville and Misses May Columbia, Bertha Dykes and Mrs. Hattie Dykes.

On Tuesday evening another large audience greeted Eld. Ellis, when he preached another eloquent and forceful sermon on "What Think You of the Christ?"

Wednesday evening Eld. Ellis spoke on "The Lost Opportunity," in which he placed before his audience a wonderfully vivid word-painting of the sorrows consequent upon the neglect to take advantage of present opportunity. His sermon was an especially powerful one and held the undivided attention of his audience from beginning to end.

At the conclusion of the services Tuesday evening eight persons united with the church by confession and fourteen by letter and commendation. Nine of the converts were baptized the same evening.

At the conclusion of the services Wednesday the following made confession and were baptized:

Russell Buckner, R. Harp, Walter Fish, Mrs. Iva Fish, Lillian Fish, Lola Fish, James Arnsperger, Elva Alexander and Clay Alexander by letter; Mr. L. H. Harp, Mrs. E. W. Hutsell, Birdie Smith, Jno. J. Ashurst, David Alexander, W. J. James, Lizzie James. In the afternoon the ordinance of baptism was administered to Mr. Geo. D. Speakes and Mr. Roy Turner in the presence of a few witnesses.

At the services last night Elder Ellis' subject was "A Call to Judgment," which he handled in able manner.

The song service by the large choir, under the direction of Mr. A. L. Boatright, is an attractive feature of the meeting. Miss Clara Belle O'Neal at the organ; Miss Esther Boatright at the piano; Mr. Dickerson and Mr. Robert Link, Jr., violinists, and Dr. Harry Mathers and M. O. Biddle, cornetists, help to swell the volume of music.

UNIQUE DISPLAY.

A beautiful and unique display of hand-made laces and embroideries will be shown in the Masonic Club Room tomorrow (Saturday) by Mrs. Bagdasian, of Constantinople.

The beautiful laces that will be shown by Mrs. Bagdasian are the handiwork of 150 American girls who belong to a Christian Mission near Constantinople.

All of the proceeds Mrs. Bagdasian receives from the sale of laces and embroideries will go to real charity, to help relieve the suffering and intolerable conditions that are imposed upon these Aermian Christian girls under the rule of Turkey.

Every lady in Bourbon county is requested to visit this beautiful display, and procure a piece of this matchless work.

Through the kindness and sympathy of Judge McMillan and his fellow Masons, the Masonic Club room has been tendered Mrs. Bagdasian for tomorrow.

YOU'RE BILIOUS AND COSTIVE—CASCARETS.

To-night! Clean Your Bowels and end Headaches, Colds, Sour Stomach

Get a 10-cent box now. Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a still barrel. That's the first step to untold misery—indigestion fumes, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleaning and straighten you out by morning. They work while you sleep—a ten cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too. (dav.)

Satisfaction Is Dangerous.

It's good to be gratified, but dangerous to be satisfied.—Sheldon.

IT REALLY DOES RELIEVE RHEUMATISM.

Everybody who is afflicted with Rheumatism in any form should by all means keep a bottle of Sloan's Liniment on hand. The minute you feel pain or soreness in a joint or muscle, bathe it with Sloan's Liniment. Do not rub it. Sloan's penetrates almost immediately right to the seat of pain, relieving the hot, tender, swollen feeling and making the part easy and comfortable. Get a bottle of Sloan's Liniment for 25 cents of any druggist and have it in the house—against colds, sore and swollen joints, rheumatism, neuralgia, sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief. (Nov.) adv.

Attacking School System.

The name is derived from the Latin 'equine,' horse, and 'ox.' Dear me, they teach you absolutely nothing that is useful nowadays!"

DESPONDENCY DUE TO INDIGESTION.

It is not at all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa. "For years my digestion was so poor that I could only eat the lightest foods. I tried every thing that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them, did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine." For sale by all dealers. (Nov.) adv.

REMARKABLE CURE OF CROUP.

DON'T DELAY TREATING YOUR COUGH.

A slight cough often becomes serious. Lungs get congested, Bronchial Tubes fill with mucus. Your vitality is reduced. You need Dr. Bell's Pine-Tar-Honey. It soothes your irritated air passages, loosens mucus and makes your system resist Colds. Give Pine-Tar-Honey. It's guaranteed to help them. Only 25c. at your Druggist. (Nov.) adv.

Africa's Consumption of Cotton.

Africa is in third place in the amount of cotton goods consumed. In some sections of Africa 50 per cent of the unbleached cotton trade is with the United States and only 10 per cent with England.

"Last winter when my little boy had croup I got him a bottle of Chamberlain's Cough Remedy. I honestly believe it saved his life," writes Mrs. J. B. Cook, Indiana, Pa. "It cut the phlegm and relieved his coughing spells. I am most grateful for what this remedy has done for him." For sale by all dealers. (Nov.) adv.

Where the Earth Is Thickest.

Scientists have figured that the earth is thickest along an imaginary line drawn from the top of Chimborazo, a mountain in Ecuador, and a point on the coast of Sumatra, where the land is fairly high.

IMPORTANT.

Bear in mind that Chamberlain's Tablets not only move the bowels but improve the appetite and strengthen the digestion. For sale by all dealers. (Nov.) adv.

WOMEN COAL SHIPS

Work With Men in Loading Vessels in Japan.

Bring Their Babies With Them, and Although Everything Is Done by Hand, Great Speed Is Attained in Loading Ship.

Nagasaki, Japan.—There is at least one place in the world where a woman may earn as much as a man for the same labor and where the two sexes work side by side. This is at Nagasaki, Japan. When a liner comes into port the passengers who have been viewing the beautiful harbor observe a fleet of barges laden with coal which are lying in wait near the anchorage, says a writer in the New York Times. On most of them are twenty to thirty men and women, the latter predominating.

In contrast with the kimono-clad women you have seen at Tokyo and Yokohama and Kobe, these wear short skirts with cloth stockings, and their heads are covered with thin cotton cloth bearing a peculiar Japanese design in blue print. Some of them have babies with them, and as the ship draws near they hastily bind them on the backs of little girls and boys and make ready for work.

In a trice, it seems, at each of the coal ports a pyramidal series of platforms is rigged up, the lowest level being just above the deck of the barge. Then on each platform two women, or a man and a woman, take their position, while a lot of men hurry down to the bunkers of the ship to receive the coal after it has been passed in and stow it away. From the end of the platform a double line extends to where men do nothing but throw a big shovel of coal in a shallow basket, which holds about a peck or a peck and a half.

The basket travels from hand to hand, but part of the effect of gravity is overcome by the forward motion, for the receptacle does not stop from the time it is once in the air until it reaches the ship's side. The empty basket is dropped with the same swing that discharges its contents, and an old woman sitting behind the man on the top platform does nothing but toss the baskets to the barge below.

Nagasaki has the name of being the "fastest" coal port in the world, though the labor here is all done by hand. An army captain tells of being on the transport Thomas at Nagasaki in April, 1912, when she took on 2,600 tons in seven and a half hours.

To count the workers who are engaged on the job is difficult. Fresh barges keep coming up all the time, and fresh workers. The Japanese contractor who supplies the coal told me later there were about nine hundred men and women at work. They fairly swarmed along both sides of the ship. The pay for this labor is by piece. Workmen and workwomen each get one yen, or 50 cents, for a day's work of eight or nine hours.

It is bewildering to watch the workers, for the baskets come up so steadily it looks as though they must be moved by machinery. Practice has taught men and women to make each motion count, and the whole effect is that of clockwork.

FIND SKULL OF BIG BOAR

Tractor Plow Brings Up Prehistoric Bones on Spot 500 Feet Above Sea Level.

Los Angeles, Cal.—That California was at one time the home of almost every kind of animal has received further proof by the discovery of the skull and other portions of an immense wild boar in Imperial valley. The skull, with its ten-inch tusks, has arrived in Los Angeles.

The find was made on the California-Mexico Land and Cattle company's ranch, one of the great tractor plows having brought the skull to the surface while preparing the ground for a cotton field. Walter K. Bowker, manager of the ranch, shipped it immediately to Harry G. Holabird. One tusk of the great pig lacks just a fraction of ten inches in length, while the other is broken off at the tip.

The spot where the relic was found is 500 feet above the sea. The bone is petrified and weighs 99 pounds. It is similar to the prehistoric relic unearthed at Carpinteria, which excited Harvard scientists.

DEAD WOMAN LIVED AS MAN

Secret Discovered After Ten Years, When She Goes to Hospital in Florida.

Tampa, Fla.—"Hiram" Calder, Jr., is dead at Orlando, Fla., of pellagra. Calder, who lived here and in Orlando for ten years, was known as a man, but a few days ago, when "he" was taken to a hospital it was discovered that "he" really was a woman.

Calder came to this city from Norfolk, Va., with a woman supposed to be "his" wife. She died at Tampa two years ago.

Calder had been working since then at Orlando in a bakery. For the entire decade Calder exercised the rights of franchise at elections, voting at every opportunity. "He" and his supposed "wife" were people of refinement.

On her death bed the woman kept grimly silent about the secret of her strange life. There is no clue as to relatives or the woman's right name.

When Buying Baking Powder

For this is the baking powder that makes "the baking better."

It leavens the food evenly throughout; puffs it up to airy lightness, makes it delightfully appetizing and wholesome.

Remember—Calumet is moderate in price, highest in quality.

Ask your grocer for Calumet. Don't take a substitute.

Received Highest Awards

World's Pure Food Exposition, Chicago, Illinois, Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

American Fishes.

The fishes of America north of the Isthmus of Panama embrace three classes, 30 orders, 223 families, 1,113 genera, 335 sub-genera, 3,263 species and 133 sub-species.

Ylang-Ylang.

Ylang-ylang, or cananga oil, is derived from the flowers of Cananga odorata and is regarded as one of the most delicious odors in the market. It is also produced in the Philippines.

Be Happy

Thousands and thousands of women, who have everything that heart could desire to make them happy, are miserable on account of womanly trouble. If you are of this number, stop worrying, and give Cardui a trial. It has brought health and happiness to thousands.

Kentuckians Swiftly Relieved of Stomach Tills by Mayr Remedy

First Dose of Wonderful Treatment Shows Results After Years of Suffering.

Many Kentuckians have found swift relief from disorders of the stomach and intestinal tract by the use of Mayr's Wonderful Stomach Remedy. The first dose gives results. It is not a long treatment. Here are statements taken from the letters of two Kentucky people who have used the remedy:

W. H. CLARKE, Central City.—"The medicine has done my wife a world of good and she has been suffering with stomach trouble for years."

MRS. BELLE HAWKINS, Eminence, Ky.—"I have taken all of the medicine. I don't think I need any more, as I think I am well. I never felt better in my life."

From all over the country come

thousands of just such letters. This wonderful remedy shows results, safely, and with the first dose. Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and removes poisonous matter. It brings swift relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operations and many are sure it has saved their lives.

We want all people who have chronic stomach trouble or constipation, no matter of how long standing, to try one dose of Mayr's Wonderful Stomach Remedy—one dose will convince you. This is the medicine so many of our people have been taking with surprising results. The most thorough system cleanser ever sold. Mayr's Wonderful Stomach Remedy is now sold here by G. S. FALLING HAIR MEANS DANDUFF IS ACTIVE.

Save Your Hair! Get a 25 cent Bottle of Danderine Right Now.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of danduff—that awful scurf. There is nothing so destructive to the hair as danduff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness itching of the scalp, which if not removed causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—anytime—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Paragon of Wives.

"Does your wife write you continually for coin?" "No; she's an excellent bridge player. Bless her little heart, she sent me \$10 this month on the rent money."

Artistic.

"There!" said Mr. Nagg, after a labored explanation of why he had stayed out so late; "I hope this is satisfactory." "It is more than satisfactory," Mrs. Nagg told him, "it is simply beautiful."

Their Two Main Objects.

Most men seem to have two objects in life: one is to become rich, and the other is to become richer.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. If buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation. (Nov.) adv.

BEST COUGH MEDICINE FOR CHILDREN.

"Three years ago when I was living in Pittsburgh one of my children had a hard cold and coughed dreadfully. Upon the advice of a druggist I purchased a bottle of Chamberlain's Cough Remedy and it benefited him at once. I find it the best cough medicine for children because it is pleasant to take. They do not object to taking it," writes Mrs. Lafayette Tuck, Homer City, Pa. This remedy contains no opium or other narcotic, and may be given to a child as confidently as to an adult. Sold by all dealers. (Nov.) adv.

Sexton in Hard Luck.

One of the healthiest localities in Australia, it is estimated is Lithgow, New South Wales, and this has been confirmed by the action of the local sexton, who has complained to the cemetery trustees that, owing to the few deaths, he is unable to make a living. He applied for increased salary, stating that since he took over the position he has only averaged \$5 per week, and could not live on that. The trustees refused the request.

TRY THIS FOR YOUR COUGH.

Thousands of people keep coughing because unable to get the right remedy. Coughs are caused by inflammation of Throat and Bronchial Tubes. What you need is to soothe this inflammation. Take Dr. King's New Discovery, it penetrates the delicate mucous lining, raises the Phlegm and quickly relieves the congested membranes. Get a 50c. bottle from your druggist. "Dr. King's New Discovery quickly and completely stopped my cough," writes J. R. Watts, Floydale, Texas. Money back if not satisfied, but it nearly always helps. (Nov.) adv.

Needed Explanation.

In an English police court an officer was giving evidence against a woman accused of robbing a pawnbroker, and assured the magistrate that, on his telling the prisoner the charge on which he had taken her, she "turned from him and swallowed a bed-tick, a pair of corsets, two brass candlesticks, a smoothing-iron, and a belows!" "Nonsense! Have you lost your senses?" said the magistrate. "Your worship, 'tis the tickets for them, I mean, she swallowed."

AN ACTIVE LIVER MEANS HEALTH

If you want good health, a clear complexion and freedom from Dizziness, Constipation, Biliousness, Headaches and Indigestion, take Dr. King's New Life Pills. They drive out fermenting and undigested foods, clear the Blood and cure Constipation. Only 25c. at your druggist. (Nov.) adv.

GIVES AID TO PLAYGROUND

Work Originated by Employee Will Be Explained by Charles M. Schwab.

South Bethlehem, Pa.—From a very small beginning on the part of Leon Flickinger, an employee of the Bethlehem Steel company, to provide a place where children of his immediate neighborhood might have a place to play, has grown a big scheme fathered by Charles M. Schwab, the working out of which will mean a large public playground, mainly for children of employees of his plant.

Early last spring Mr. Flickinger received permission to utilize a small plot of the steel company's ground and further permission to use any piping he wanted and could find on the Bethlehem Steel company scrap heap. With this piping Mr. Flickinger pieced together horizontal bars, the superstructure for a brace of swings, flying rings, seesaws, a Maypole and sliding board and constructed a fountain basin and sand box.

Recently Mr. Schwab chanced to pass by and was so pleased with the scheme that he immediately decided to elaborate on it. In order to obtain a larger space Mr. Schwab sold several of his houses in the vicinity, retaining one which he will have remodeled as a boys' clubhouse. Concrete walks are to be laid around the newly enlarged grounds and more apparatus added.

OPEN WAR ON ANTIQUE FAKER

London Authorities Move to Protect American Purchasers From Sham Articles.

London.—For the benefit of Americans and others who desire to buy antiques during their visits to London, the authorities of the city of London recently established a department at the Guildhall, where purchasers may ascertain whether they have bought genuine or sham articles.

A case of sham antiques has been collected and the intending purchaser after a visit to it should be able to judge whether articles offered to him are real or otherwise, while those who buy before visiting the Guildhall can soon learn whether their objects of art are worth the money they have paid for them.

Articles in lead and brass appear to occupy the special attention of the antique faker, who is today something more than a highly skilled craftsman, his bogus productions being in many cases highly artistic.

KILLED WRITING TO MOTHER

Victim of Train Had Just Penned, "I Am Not Working Now," When Engine Struck Him.

Portland, Ore.—Falling asleep while sitting on the railroad track, writing a card to his mother, a young man, believed to be George E. Whitcomb of 40 North Seventy-second street, was killed instantly when struck by O.W. R. & N. westbound train No. 90. The train had just rounded a curve near Taylor, 25 miles east of Portland, and the engineer did not see the man on the track until the engine was almost upon him.

A postal card picture of himself was in the young man's hand, and it bears the name of George E. Whitcomb. He had evidently just begun to write. "Dear Mother," the writing reads, "I am not working now. I am making a—"

YOUR BLOOD

Is the canal of life but it becomes a sewer if clogged up. All life consists of building up and tearing down and just in the same manner that the blood carries to the various parts of the body the food that the cells need for building up, so it is compelled to carry away the waste material that's formed down. These waste materials are poisonous and destroy us unless the liver and kidneys are stimulated into refreshed and vigorous life.

When a man goes home with a long blond hair on his vest, his wife never stops to figure that there is such an animal as Reasonable Doubt.

A MERITED PROMOTION.

Mr. and Mrs. Douglas Thomas, Jr., will shortly move to Lexington to reside, where Mr. Thomas will take a clerkship in the office of the Supervisor of Bridges of the Lexington & Eastern division of the Louisville & Nashville Railroad. Mr. Thomas has for several years been a clerk in the executive department of the Roadmaster's office of the Louisville & Nashville, with headquarters in Paris, and has proven a most capable and efficient assistant. The appointment of Mr. Thomas to the position in the Lexington office comes in the nature of a promotion and a most deserved one. Mr. Thomas will be succeeded here by Mr. Y. H. Harrison, who will be transferred from the construction department of the Louisville & Nashville at Winchester.

Mr. Thomas' many friends here regret his departure from "our midst," but congratulate him on his promotion, and hope that he may yet attain a higher station in the employ of the Louisville & Nashville. It is safe to say that when the fishing and camping season for the Chippewa Club in the spring "Doug" will respond "Here," when the roll is called.

RURAL TELEPHONES.

The telephone is one of the most profitable business agencies that the farmer can employ. It affords him facilities for keeping in constant communication with the markets, provides a sitting room for the community where the families can assemble and discuss the events of the day without the inconvenience of travel or loss of time, and in sickness and emergencies, it renders a divine service.

Kentucky farmers should encourage the building of telephone lines. Local co-operative companies can be formed and country lines built at small expense.

"A Baby Did It."—A strange baby in the back of his automobile causes a quarrel between Eddie and his fiancée. Embarrassing situations follow.

One other good picture will also be shown. Columbia Theatre Saturday. —"The Return of the Twin's Double."—Bison, three-parts—Following a spectacular train wreck the Lady Raffles escapes to again match her wits with Detective Kelley. Plot and counter-plot is intermingled with adventure and romance.

A good comedy picture will also be shown.

AMERICAN HORSES IN BATTLE.

The American horse is one of the first to answer the bugle call of the European war. Representatives of many foreign governments are in this country purchasing horses for the various armies of the warring nations and practically every state in the Union is contributing cavalry material to the belligerent factions.

The American horse is a utility animal and excels that of any other country on the face of the earth. He has plowed our fields, fought our battles and is the most faithful of animal kind. His reputation has extended to other countries and he is now going to perform the service for foreign countries which he has so faithfully fulfilled at home.

A SUFFRAGETTE HEN.

Mr. Dave Sanders brought to the Herald office a few days ago a hen's egg with the figure 10 on it as plain as if marked by print. There was also the outline of what many people took to be the face of a skeleton. An old lady living on Depot street, who is somewhat of a seeress, says that the 10 marked on the egg means that the European war will last fourteen years and that the skeleton is the representation of what everybody will be if the fighting is kept up that long. The hen that is responsible for the mystically marked egg is a regular layer, but she was never known to set and positively repudiates any inclination to raise a family of chicks.—(Harrodsburg Herald.)

"A PAIR OF SIXES."

The long and anxiously awaited appearance of H. H. Frazee's international comedy hit, "A Pair of Sixes," will occur at the Ben Ali in Lexington to-night, Saturday nights and Saturday matinee, November 6 and 7. It comes direct from its run of a year at the Longrace theatre, New York City, where it enjoyed a season of popularity seldom enjoyed to a farce. Mr. Edward Peple, the author, has evolved in "A Pair of Sixes" a clean-cut comedy that is full of vim and stire and works out to a logical conclusion that is as surprising and wholesome as it is satisfying, the farce being especially clever in that, for once in comedy annals, the action of the plot is culminated and each act closes with a rousing climax that leaves the audience gasping in its seats with laughter. H. H. Frazee is well-known as a New York manager, who insists upon a perfect cast for every company he sends upon the road, and "A Pair of Sixes" is no exception to this rule, containing in the cast, as it does, such well-known names as Bertha Kreighoff, Martha Oatman, Nellie McHenry, Rita Carlyle, John L. Kearney, Caroline Leonard, Kendall Weston, Stanley G. Wood, all of whom played their respective characters during the New York run at the Longrace. Seats now selling.

BAPTIST CHURCH MEETING.

Following the seven-weeks' revival meeting recently closed at the Tabernacle, Rev. O. R. Mangum is conducting a series of revival meetings at the Baptist Church, beginning Monday night. At the Tuesday night services there were seventeen additions. Last night Rev. Mangum delivered a splendid sermon on "Love in Four Dimensions," to a large audience.

To-night, to-morrow afternoon and Sunday morning and night baptismal services will be conducted at this church. A well-trained choir is rendering some good music at these meetings.

FISCAL COURT.

The Bourbon Fiscal Court met in the County Court room yesterday, with County Judge McMillan presiding, and Justices Martin, Thomason, Redmon, Burns, Lloyd, Stephenson, Shropshire and Turner present.

Claims amounting to \$1,124.85 against the county were allowed and ordered paid.

Miss Betsy Ray O'Neal, having declined the \$25 allowed her from the Hamilton Beneficiary Fund, same was ordered paid to Miss Mary Batterton. County Judge McMillan nominated and appointed Ben. F. Bedford county road engineer. Upon motion made and seconded the vote stood 5 to 2. The motion carried and Mr. Bedford's nomination was rejected. This still leaves a vacancy in the office.

Beyond several small business matters of minor importance, no other business was transacted and upon motion, the Court adjourned to Dec. 3.

ROBERT FRANKS HAS GOOD YEARLING COLT.

Robert Franks, of Paris, has a good yearling at the Kentucky Association track that has shown sensationally, in the brown colt by Transvaal out of Margaret Roche, the dam of Colonel Heck. He negotiated a quarter recently in 23 3/5 with 125 pounds on, the performance being a highly impressive one. The colt is bright and is owned by the veteran breeder, Martin Doyle. Transvaal was represented by a number of high-class performers the past season, including Burwood, Balco, Transact, Transit and Transportation.

FOREST NOTES.

Cherry is the wood used as a backing for the metal plates from which illustrations are printed in magazines and periodicals. It is chosen above all others because it holds its shape, does not warp or twist, works smoothly and does not split.

Two governors, those of Oregon and Massachusetts, have suspended the hunting season this year because of increased danger of forest fires when the woods were exceptionally dry.

The position of city forester is now offering a new field for men with a technical training in forestry. Fitchburg, Massachusetts, is one of the latest towns to secure an official of this sort.

Because of extreme drouth, the fire risks on the national forests in the Northwest have been greater this season than in any other since 1910, the worst year since the forests were created. Much less damage was done this year because experience in fire fighting was gained in the fires of 1910.

NICHOLAS COUNTY MAN FOUND MURDERED IN WEEDS

The body of C. T. Royce, well-known Nicholas county farmer, who had been missing for the past twelve days, was found Tuesday morning near his barn, hidden under weeds, which were covered by rails. There is no doubt that he had been murdered. When found the right arm was missing, his left hand was off and his head was severed from the body.

The body was discovered by Sheriff W. T. Parker and Ed. Lawrence, who went to the farm Tuesday to continue the search in hopes of finding some clue that they might trace down.

The first excitement came when Mr. Dalzell, a neighbor of Mr. Royce, telephoned the officials that Mr. Royce had not been seen for several days, that his barn had been locked and one of his horses had died and the others were almost dead. Search was instituted immediately. Clues were run down. Malcolm Royce, of Winchester, was called over the long distance phone and he came to assist in the search. The place where Mr. Royce's remains were found indicated that there was a struggle. A binder, which stands close by the barn was covered with blood, which had been smeared with dirt. Several rocks covered with blood were found. A neighbor, Mrs. Wilson, said that about ten days ago she heard two shots in the neighborhood of the Royce place and heard some one yell, "O, Lord" twice.

Coroner Hutchings held an inquest Tuesday afternoon and examined several witnesses. Bud Thomas was placed under arrest. Annon Marks was taken into custody but was released upon examination.

Mr. Royce is survived by two sons, Walter Royce, of Kansas, and Malcolm Royce, of Winchester.

FOREST WARDENS FOR KENTUCKY APPOINTED.

William Bartley, of Pike County, and J. C. Newberry, of Martin county, were appointed County Forest Wardens of their respective counties on Tuesday by J. E. Barton, State Forester.

A free nursery will be established at the Kentucky Normal and Industrial Institute by State Forester Barton. He will be assisted in the work by Albert Martin, of Junction City, who will be in charge of the nursery. They plan to plant twelve seed beds four by twenty-four containing 100,000 seeds.

Plans are also under way to enlarge the State Nursery at Louisville. By next spring Barton expects to have 1,000 young trees which will be sold at cost. The trees will be of the various kinds.

"MEN AND MILLION" LEADERS RESTING.

Workers of the "Men and Millions Movement," who have been making a campaign in this State for the past two weeks for 1,000 men and women as missionaries and Kentucky's portion of the proposed \$5,000,000 which the movement is attempting to raise to secure \$1,000,000 offered by R. A. Long, are resting during the week, beginning Tuesday, and will remain inactive until this evening. At that time the team will gather at Grand Hotel, Cincinnati, for a general report of the work in this State, and Saturday they will resume their campaign here. Lexington is headquarters for the movement in this State.

President R. H. Crossfield, of Transylvania University, returned from Maysville and Mason county recently, where he has been several days in the interest of the "Men and Millions Movement."
